Dear Governor Perry:

The attached information confirms that the US House of Representatives has passed H.R. 4844 titled the "Federal Election Integrity Act."

As a long time Precinct Chair and Election Judge in Dallas County, I urge you to immediately call for Texas legislative action to implement the same election integrity in Texas, even if it requires a special session.

We have all seen the massive marches in Texas and other states where illegal immigrants have been protesting any effort to control their illegal entry to this country. The sad fact is that the promoters have conducted voter registration actions at those events. Everyone knows that there have been thousands of voters registered at those events who are illegal, and will get away with voting in this next election.

I know that the Dallas County Elections Office feels their hands are tied in attempting to verify the legitimacy of voters appearing at the polls, in view of the fact that all new voter registrations are submitted to the Texas Attorney General's office for verification. But the fact is that the Texas Attorney General's office is not adequately staffed to instantly verify the fact of citizenship and social security numbers BEFORE the November 7 election, meaning that there will be hundreds of thousand illegal immigrants voting in this election.

Is there any way that you as Governor can issue an interim Executive Order that will authorize Texas county election offices to require a legitimate government recognized photo ID in order to vote in Texas, including the national General Election on November 7? Even the use of a Texas drivers license is an inadequate qualification for this purpose.

The insane practice of Texas allowing a "Motor-Voter Registration" is a perfect setup for illegals to receive a voter registration certificate, simply because they secured a Texas drivers license. I urge you to demand that the Texas Legislature in its next session pass legislation to terminate the "Motor-Voter Registration" practice. That is another Democrat effort to flood the polling places with illegal immigrants voting in Texas.

Thank you for your urgent attention to this critical matter of returning INTEGRITY to citizen voting in the State of Texas

Edwin W. Hickson

House Passes H.R. 4844, the Federal Election Integrity Act

On Wednesday, September 20, 2006, the U.S. House of Representatives passed the Federal Election Integrity Act of 2006 by a vote of 228-196. As the legislative session winds to a close, H.R. 4844 is another part of the House GOP national security strategy devised to show political support for securing the nation at its borders and now at the ballot box. H.R.4844 seeks to prevent fraud in the election process by requiring photo identification for voters in federal elections. All states will be mandated to check voters' photo identification by the November 2008 election. By November 2010, states will only be allowed to accept photo identification that was issued upon presenting proof of citizenship. Eligible voters who cannot pay for identification cards will be provided one by the state at no charge. Costs for such a mandate will be reimbursed by the federal government.

A recent NBC/Wall Street Journal poll showed 81% of those surveyed favored an ID requirement for voting. In another poll conducted by Rasmussen, 77% of likely voters across the country agree that displaying a photo ID should be required to cast a vote. A number of states have already acted to require voters to follow proof of citizenship. In Phoenix, Arizona, registration went up 15% after passing a referendum requiring voters to prove citizenship when registering to vote. These changes encourage citizens to vote and discourage illegal voting.

Congressman Vernon Ehlers (R-MI) said in a statement. "Every day millions of Americans show a picture ID to pay by check, board a plane, or buy alcohol or tobacco. Surely, the sanctity of the ballot warrants as much protection as these activities. Requiring people to show an ID to prove their citizenship and eligibility will protect the vote, and help restore confidence in our system."

What plan if any does the governor have to prevent/stop illegal aliens from voting in Texas?

Is the governor hearing the outcry from the citizens here in Texas that WE WANT THE BORDER CLOSED AND ILLEGALS DEPORTED?

Those illegals who are currently incarcerated in our jails, prisons and mental institutions should be first to go.

Employers who are currently employing illegal aliens should all split the FULL COST to educate the children of their illegal hires. They should also split the FULL COST for health care and other social services they are draining here in Texas.

The Honorable Rick Perry
 Governor of Texas
 PO Box 12428
 Austin, TX 78711-2428

Governor Perry:

I realize that this topic will probably not be enduring to the various elected officials but one can see that our Texas Voter Registration Codes are flawed! The fact that one only has to attest that he or she is a U.S. Citizen is a total farce. How many illegal aliens are registered to vote? I venture to say that no one has the slightest idea. The only follow up to the citizenship requirement in Texas is that the voter registration list is used for selecting the jury pool. Under current Texas law, each month the clerk of the court sends a list of all jurors who were disqualified due to lack of citizenship to the voter registrar. The voter registrar then must check whether any of these names appears on the registration rolls. If any of the disqualified jurors are registered to vote, then the voter registrar sends the voter a notice and a request for proof of citizenship. If there is no response from the voter in 30 days showing proof of citizenship, the voter's registration is canceled. In addition to the criminal offense of a false statement from the voter, the Election Code also provides a criminal offense that applies to anyone who helps a

voter make a false statement. See Section 13.007: § 13.007. FALSE

STATEMENT ON APPLICATION. (a) A person commits an offense if the person knowingly makes a false statement or requests, commands, or attempts to induce another person to make a false statement on a registration application. (b) An offense under this section is a Class B misdemeanor.

(c) For purposes of this code, an offense under this section is considered to be perjury, but may be prosecuted only under this section.

The penalty for such action is as follows. § 12.22. CLASS B MISDEMEANOR.

An individual adjudged guilty of a Class B misdemeanor shall be punished

by: (1) a fine not to exceed \$2,000; (2) confinement in jail for a term not to exceed 180 days; or (3) both such fine and confinement. My concerns are not only are election laws being jeopardized but our legal system is seriously flawed. I just contacted the District Court Clerk for my district and asked what proof of citizenship was required to be a juror. Her answer was "NONE", therefore the entire citizenship requirement is a sham. Unfortunately the vast majority of the American public does not realize that they are being scammed. Here is an excerpt of a letter that I just received from the Elections Division Staff of the Texas Secretary of State. "Our office has worked over the years to enforce the U. S.

citizenship requirement, but in a manner that will not intimidate persons who are eligible to vote. The Texas and federal system, in general, is designed to make registration easy for a voter, and that goal is served both by mail-in and agency registration procedures. Simply put, the system depends on the voter's word for most of the information in the first application to make it fast and easy for voters to apply. After that, the voter's status is subject to investigation. In that context, however, please know that our office and the Texas Legislature have tried to answer the concerns of citizens like you, as follows." I trust that you will do your part in rectifying this National problem. I have researched the Election Codes of several States and this is a National problem that can only be solved by both the State Legislatures and Congress.

Sincerely,

Cassandra Del Real

I just found out that in order to vote in the upcoming elections, YOU DO NOT HAVE TO BE A CITIZEN! Can you imagine? In order to vote in Texas, all you have to show is a pay stub! In Arkansas, a hunting license! In Alabama, a fishing license! In some other states, a credit card receipt or a utility bill! Where are our politicians? Who has been minding the store?

In Los Angeles, they're calling for a million people to register to vote AND THEY DO NOT REQUIRE ANY KIND OF IDENTIFICATION! Do you think they'll vote in Osama Bin Laden? Vicente Fox?

Again, I ask, WHAT HAVE OUR POLITICANS BEEN DOING? I GUESS THEY'VE BEEN OUT COLLECTING WHOEVER THEY CAN GET TO VOTE FOR THEM, NOT CARING WHAT HAPPENS TO OUR COUNTRY!

We're throwing our country to the wolves.

Subject: Voter Identification Bill

Senator Williams:

Support the debate on HB 218. Texas, as well as all other states, needs a strong voter verification program. I support picture identification only for voting. Any illegal alien can produce two pieces of paper with his/her name on it. All voters should be checked for citizenship status before being allowed to vote. I know that LULAC as well as other illegal alien rights organizations are promoting registration for illegal aliens in this state and across the entire country. In the present system, there is nothing to keep them from being able to vote just as though they are citizens. This bill is weak at best but better than nothing.

Sincerely,
Jean McLeod
